

## SPOT FUME EXTRACTORS

In laboratories produces chemical fume, pharmaceutical powder containment, biological processes, titration processes and it causes unwanted or hazardous fumes, dusts, and vapors. The **APZEM** introduces spot fume extractor high-quality filtration to control the chemical hazardous. This Fume Extractor is highly durable and meets the application requirements of production units, laboratories, pharmaceutical unit and so on.

### FEATURES:

- > Can be done 150 points system
- > Flexible arm connections
- > Flow control
- > high quality Filtration media
- > Fully chemical resistant
- > Protect personnel from harmful fumes
- > Deliver long filter life
- > Self supportive flexible arm

### ADVANTAGE :

- > Variable Speed Controller Included
- > Reliable, Low Maintenance Operation
- > Low Power Consumption
- > Long Filter Life
- > Quiet Operation

### APPLICATION :

- > Chemical Lab
- > Medical Lab
- > Pharmaceutical Lab
- > Particulate Control
- > Printing Fumes
- > Epoxy Fume Control

### ACCESSORIES :

- > Suction hoods
- > Pre Filter
- > Fine Filter
- > HEPA Filter
- > Carbon Filter
- > Blower
- > Flexible duct
- > Fume extraction arms
